

Job Description – SQL Developer

Company Overview

ABC Technologies Pvt. Ltd. is a renowned IT solutions provider specializing in database management, software development, and enterprise applications. We are seeking a talented SQL Developer to join our growing team.

Job Summary

The SQL Developer will be responsible for designing, developing, and maintaining SQL databases and ensuring their performance, reliability, and security. The ideal candidate will work closely with cross-functional teams to optimize data processes and support business intelligence requirements.

Key Responsibilities

- Design, develop, and maintain SQL queries, stored procedures, and views.
- Optimize SQL queries for performance improvements.
- Develop data models and database solutions to support applications.
- Collaborate with developers and analysts to understand data requirements.
- Monitor database performance and troubleshoot issues.
- Ensure data integrity, security, and availability across environments.
- Prepare reports and support data extraction for business use.

Required Skills

- Proficiency in SQL Server, MySQL, or Oracle databases.
- Strong knowledge of database design and normalization.
- Experience with performance tuning and query optimization.
- Knowledge of ETL tools and data warehousing concepts.
- Familiarity with Power BI, SSRS, or similar reporting tools.
- Good analytical and problem-solving skills.

Education & Experience

- Bachelor's degree in Computer Science, Information Technology, or related field.
- 2–5 years of experience as an SQL Developer or Database Engineer.
