EXPERIENCES

Android development Internship

Online

- Created RESTful APIs with Flask/Django to support mobile app features Jul - Sep 2022
- Supported Android app development by building backend services and automation tools using Python
- Integrated Python-based services with Firebase and third-party APIs.

Data Analytics Internship

Online

- Created interactive dashboards and data - visualizations . Sep – Nov 2023
- Performed exploratory data analysis (EDA) and built predictive models using scikit-learn

TECHNICAL SKILLS

- **Programming Languages** : C#,.NET-Core , ASP.Net-Core ,MVC, web-API
- **Web Technologies** : HTML ,CSS , Java Script, React ,jQuery
- **Devolpment Tools** : Swagger , Postman , Nu-get Packages
- **Data Bases** : SQL Server , MySQL, PostgreSQL
- **Version Control** : Git , GitHub , SourceTree

CERTIFICATIONS

- **Microsoft Azure developer and Fundamentals** Certification issues by Microsoft | March 2024
- **C# (Basic)** Certification issued by Hacker rank | Feb 2025.
- **Elite + Silver** certification for scoring 79% in “Internet of Things” by NPTEL.

ACHIVEMENTS

- Engaging and well structured presentation on PDF and Document Converter project at College **FEST 2024**.
- Successfully Completed ” **AZURE CLOUD Course** “ conducted by Our College.

- Listening Music , Reading Books

HOBBIES

Drawing , Playing Sports

VOLUNTEER EXPERIENCES

- Awareness on Technologies for students “ **FSE internship** “ organized by state government (AICTE) .
